dynamic ZM

Fire Alarm Zone Plan

HOSPITALITY

- Improved aesthetics in customer reception areas
- Fire Alarm panel can be located away from public view
- No limit to media updates
- Media schedules for timed menus and offers

DESCRIPTION

An ideal solution for improved aesthetic appearance in hospitality venues, dynamicZM allows for the fire alarm panel to be located away from constant view and possible public interference. In the event of a fire alarm activation, dynamicZM displays clear fire information automatically. With no limits to media updates, it's easy to ensure current offers are always displayed. Utilising the media schedules, you can also create timed media displays for specific daily menus or offers.

COMPATIBILITY

dynamicZM is compatible with a range of conventional and addressable fire alarm panels from:

MADE IN BRITAIN ®
